## AN OVATION FOR SECRETARY TAFT

War Secretary Warmly Welcomed in Michigan.

GREETED BY LARGE CROWDS

People of Grand Rapids Cheer Him as the Next President of the United States—Delivers an Address at Lincoln Club Banquet.

Grand Rapids, Mich., Feb. 13.—The Lincoln club banquet here was a brilliant success, with a galaxy of speakers never equalled in Michigan political banquets. It was held in the Klingman Furniture exposition building, and more than 2,000 persons occupied seats at the tables. The hall was elaborately decorated, and as a compliment to Ambassador Jusserand of France, the French colors were mingled with the American.

President Roy M. Watkins of the Young Men's Republican club and President Charles Holden of the Lincoln club opened the banquet with greetings. United States Senator William Alden Smith was toastmaster and introduced the guests of the evening. The speakers were Ambassador Jusserand, Congressman George Edmund Foss, Secretary of War Taft, Governor Curtis Guild, Jr., of Massachusetts, and John Barrett, director of the Bureau of American republics at Washington.

Although all of the speakers were greeted with enthusiasm, it was Secretary Taft who received the greatest outburst of applause. His speech was interrupted frequently by applause.

Ambassador Jusserand was the next speaker. He was followed by Governor Guild of Massachusetts, Congressman Edmund Foss and John Barrett. Secretary Taft's stay in Grand Rapids was strenuous. The day's activities included a public reception at the Morton House, a reception and speech at the convention of the State League of Republican clubs, a reception and speech under the auspices of the Taft club at the Majestic theater, a social dinner at the home of Philo C. Fuller, an old college friend, the Lincoln club banquet and address, and another banquet later in the evening.

Secretary Taft's visit to Grand Rapids developed into a tremendous ovation. Everywhere he was cheered as the next president of the United States. He held three public receptions while here and for hours was compelled to stand and shake hands of hundreds who insisted on meeting him.

Cheered By a Big Crowd.

A mob was collected around the station when he alighted from his train and he was cheered by hundreds of members of the newly organized local Taft club. He entered an automobile for the trip to the Morton House, but the streets were so crowded that progress was slow. Policemen rode in the automobile to give the secretary safe conduct. The route was handsomely decorated with the national colors.

Part of the mob followed his auto on the run to the Morton House. Another crowd was packed in the hotel corridors. Another was stacked up in the streets outside. There was some cheering wherever he appeared. Every five minutes some enthusiast would call for "three cheers for the next president" and his wish would be gratified in each instance with great promptness.

Of course, it was only a coincidence that the day chosen for the secretary's

appearance at a Lincoln day banquet should be seized upon as a day of all others for about every Republican political body in the state of Michigan to visit Grand Rapids. The Republican state central committee happened to meet here.

By another coincidence the state league of Republican clubs was holding its annual meeting here. Many of the state officers and quite a sprinkling of the Republican members of congress were here and it is said a quorum of the legislature and of the constitutional convention could have been assembled within half an hour.

Secretary Taft's first reception was at the Morton House, where for two hours he shook hands with the men and women who waited in line for a chance. Then he was hustled into a carriage and taken to the hall where the Republican league was in session. The league suspended all business to hear the secretary make a few remarks.

From the league meeting the secretary went back to the hotel to meet another reception. Then came the big meeting at night. All of which tends to indicate that Michigan folks think a great deal of Secretary Taft.

### PLAN OF THE DEFENSE.

To Shift Blame in Graft Cases Onto Architect.

Harrisburg, Pa., Feb. 13.—That the blame for the alleged abuses in the contracts for the furnishings of the new capitol will be shifted from Contractor Sanderson and the three former state officers now on trial in the Dauphin county court for conspiracy, to Architect Huston is apparent from the opening arguments of counsel for the defense to the jury.

Following the refusal of Judge Kunkel to make an order to give binding instructions to the jury to acquit all of the four defendants, the lawyers for the defense began their opening arguments.

Arguments were made by Mr. Rothmel for Contractor Sanderson and by Mr. Gilbert for Former Auditor General Snyder. They contended that as agent of the board of grounds and buildings the defendants relied on Huston as to the correctness of the bills of the contractors and that it was his duty to certify to the quality and quantity of all the furnishings before the bills were paid.

Former Governor Pennypacker, who was president of the board at the time of the award of the Sanderson contract and during the furnishing of the capitol, will be one of the most important witnesses for the defense. Snyder and Mathews will also testify in their own behalf and it is probable the other two defendants will be called to the witness stand.

Huston is still here under subpoena by the defense, but it is doubtful if he will be called as a witness. His lawyers were in court for the first time in ten days, but took no part in the proceedings.

### RECEIVED BY ROOSEVELT.

Delegates to Religious Educational Association Visit White House.

Washington, Feb. 13.—Interest in the work of the fifth general convention of the Religious Educational association centered in a reception and an address to the delegates by the president of the United States at the White House, in which he declared that our material prosperity will avail but little unless it is built upon the superstructure of the higher moral and spiritual life.

The real business before the second day's session, which was held in the First Congregational church, was the reading of the annual reports of "surveys" of the work of the association and of the progress in moral and religious education.

Francis Greenwood Peabody, Harvard, Mass., was chosen president. The presentation of the survey work of the association for the past year was made by Henry F. Cope of Chicago, general secretary.

The association has a membership of 1,934; 250 of whom have been added during the past year, 237 having been removed, either at their own request or because of long continued inactivity and forty members having died. The financial condition of the association was shown to be good.

### CAUSES ASTONISHMENT.

Portuguese Cabinet Council Will Not Rescind Dictatorial Decrees.

Lisbon, Feb. 13.—The cabinet council has resolved not to rescind the dictatorial decrees promulgated during the last days of King Carlos' reign, except those considered offensive to the public dignity. This unexpected action of the cabinet has caused the utmost astonishment.

## HALF A DOZEN PERISH

Explosion Occurs in Factory at Providence, R. I.

### THREE PERSONS ARE HURT

Building Badly Wrecked by the Explosion and the Work of Destruction Is Completed by the Fire That Followed It.

Providence, R. I., Feb. 13.—Six persons are believed to have been killed by the explosion of a mixer in the starch factory of C. S. Tanner. Three other persons were injured. Their condition is not regarded as serious. The building was badly wrecked by the explosion and fire following completed the work of destruction. The dead are:

Richard Gomes, John Dault, Jack Santos, Tony — and Mike —.

All these were workmen. Another man, A. L. G. Chase, who was in a chandlery store, which occupied a corner of the building, is missing and is supposed to be buried in the ruins.

Three colored men who were passing the building at the time were hit by bricks and pieces of mortar, and also suffered burns from quantities of hot starch, which was sprinkled liberally about the neighborhood. The exact cause of the explosion remains to be determined. In the room when the explosion occurred were the five workmen, Gomes, Dault, Santos and two others known only as Tony and Mike. It is supposed that they were instantly killed and their bodies subsequently incinerated by the fire.

The property loss will probably not exceed \$100,000.

### PROBABLY EXAGGERATED.

Reports of Explosion at Santa Rosa Mining Camp in Mexico.

Douglas, Ariz., Feb. 13.—Reports of the explosion at the Santa Rosa mining camp, eighteen miles south of here in Sonora, probably have been exaggerated. No one was injured when the two separate charges of dynamite were exploded, wrecking the commissary and part of the boarding house. That all of the Americans in the camp were not killed or maimed, however, is due to the fact that the explosion occurred at a time when they were grouped some distance away. A half-burned fuse and a heavy charge of dynamite were found later under the house occupied by Foreman Ryan. The work is believed to be that of Mexican anarchists, such as operated in Cananea. The Mexican government is making special efforts to ascertain the guilty ones. Mexican employees, about fifty in number, are under close surveillance.

The Santa Rosa mine is owned by the Calumet and Arizona interests.

### WITH A PAIR OF SCISSORS

Patient in a Chicago Hospital Commits Suicide.

Chicago, Feb. 13.—William Andrews, thought to have been from Sioux City, Ia., committed suicide at the county hospital by severing his jugular vein with a pair of scissors.

Andrews was brought to the hospital presumably suffering from pneumonia. Upon reaching the asylum, however, the physician in attendance could find no symptoms of pneumonia, and advanced the theory that the patient was shamming. While discussing this belief with the nurses, Andrews leaped from his bed and, seizing a pair of shears, slashed his throat. He is supposed from letters found to have a brother in England.

### THREATENED BY A FLOOD

Minnesota City in Danger of Being Inundated.

Winona, Minn., Feb. 13.—Minnesota City, six miles north of here, is threatened by a flood. The mild weather of the past few days has melted much snow. In the valleys of the bluffs surrounding the village immense volumes of water have been pouring into the little stream which runs directly through the village. A dam a short distance above threatens to give way at any moment and great damage is sure to result. The main street is already a foot under water. Merchants and residents are moving as much of their property as possible to higher places.

Negro Whipped by a Mob.

Salina, Kan., Feb. 13.—George Washington, a negro charged with a brutal assault upon his wife, was taken from the jail at Ellsworth, Kan., by a mob of 100 masked men and threatened with hanging. He was released after a horsewhipping was administered and as he was leaving town he was shot in the shoulder by a member of the mob. He made his way to Wilson, Kan., where he received medical attention. He will recover.

### STRANDED ON AN ISLAND.

One of Evans' Ships Will Search for Missing American.

Washington, Feb. 13.—A man by the name of Jeffs and whose home is said to have been in Connecticut, is believed to be stranded on one of the Galapagos or Tortoise Islands, situated off the west coast of South America. A prominent person from Connecticut interested in Jeffs' case has written to the department asking that one of the vessels of Admiral Evans' fleet stop at the islands on their way from Callao, Peru, to Magdalena bay and make a search for him. According to the information at hand Jeffs is thought to be on the island of Santa Cruz, which also bears the name of Indefatigable, but definite data about him is lacking. A request made heretofore that an American war vessel search for the man had to be refused because there were no ships in that part of the world. This time, however, one will stop and orders with that end in view will be given to Admiral Evans before he leaves Callao. Either a supply ship or the repair vessel accompanying the battleships will conduct the search. There is a lighthouse on one of the islands, which are said to be now nearly unpeopled.

### LONG SEARCH IS ENDED.

Aged Father Finds His Missing Son in Prison.

St. Louis, Feb. 13.—After having searched for fifteen years for his missing son, Edward Wirtell, an aged man, wandered into the court of criminal correction, attracted by having heard a prisoner's name mentioned as Edward Wirtell, Jr., he made inquiries and was taken to the prisoner's cage where he came face to face with his missing son, who was to be tried for burglary.

"My God, it is my son!" exclaimed the aged father. "You are my son—" and he fell to the floor in a faint. He was tenderly carried out by a deputy sheriff and after being revived went sorrowfully away. The son had made no remark and showed no emotion.

Germans to Adopt Jap Methods.

Berlin, Feb. 13.—The Japanese method of wrestling, jiu jitsu, is to be introduced into all the military and naval gymnasia of Germany at the express command of the emperor. His majesty has directed all officers going through a course of gymnastic instruction at the central gymnasia to acquire a thorough acquaintance with the rules of jiu jitsu, more especially those connected with defense against unexpected attacks.

Rewards for Robbers.

Jefferson City, Mo., Feb. 13.—Governor Folk has offered a reward of \$300 each for the capture of the men who robbed the Farmers and Manufacturers' bank at Rich Hill and a reward of \$400 each for the capture of the five men who robbed the bank at Willard. The Rich Hill bank was looted of over \$20,000 and the Willard bank of \$10,000.

## ENLIVEN THE DEBATE

Democrats Discuss Virtues and Faults of Mr. Bryan.

### LEAKE BECOMES SARCASTIC

New Jersey Congressman's Remarks Applauded by the Republicans in the House—His Colleague Defends the Nebraskan.

Washington, Feb. 13.—The pent-up feelings of members on the issues of the day and other topics were given a chance to be aired in the house of representatives. The opportunity came when the legislative, executive and judicial appropriation bill was taken up and general debate for an indefinite period was begun. As was the case last week, the tariff question and the president's message were the principal themes of discussion.

In the course of the concluding debate on the Indian appropriation bill, the proceedings were enlivened by Messrs. Hamill and Leake of New Jersey, both Democrats, discussing the virtues and faults of William J. Bryan. Mr. Hamill insisted that his colleague had not in his speech of last Monday truly represented the sentiment of Hudson county, which they both represented, the state of New Jersey or the country. Replying, Mr. Leake reiterated his charge that Mr. Bryan did not represent the principles for which Democracy stood.

Mr. Leake's tone in referring to Mr. Bryan was so sarcastic that he was repeatedly applauded by the Republicans.

Adheres to His Opinion.

Mr. Leake said it was his honest opinion that his views reflected the sentiment of his district, his state and the country. There were, he said, certain principles of the Democratic party which had been departed from since 1896, and that in this year, when we see an opportunity of victory, "we are still trusting our fortunes to the distinguished gentleman from Nebraska."

General applause and laughter greeted Mr. Leake as he took his seat, and after a momentary silence it broke out with increased vigor.

John Sharp Williams, leader of the minority, brought the colloquy to a climax and a close.

"I have observed," he said, "that the risibilities of the other side were considerably stirred by the clash of two individual opinions on this side. The Republicans seem to rejoice in the fact that there is no rod of iron on the Democratic side to assure absolute unanimity of opinion. I recognize, as in contrast, that the Republicans are generally united, notwithstanding the fact that now and then when one of them rises he is warned by another of them to get out of the way or be run down."

### TALKS ON CURRENCY BILL

Senator Rayner Condemns Present System of Banking.

Washington, Feb. 13.—Senator Rayner of Maryland spoke at length in the senate on the currency bill, condemning the present system of banking in the United States and incidentally declaring that the president by his methods of fighting the encroachments of predatory wealth had done much to intensify the panic through which the country has recently passed. The senate devoted two hours to considering the criminal code bill and then adjourned.

### INDIANS COMMIT SUICIDE.

Sixteen Attempt Self-Destruction and Six Succeed.

San Antonio, Tex., Feb. 13.—A special to the Express from Mazatlan says:

Sixteen Yaqui Indians deported from Sonora and en route to the Isthmus of Tehuantepec and Yucatan, attempted to commit suicide by jumping into the ocean from the government transport when a short distance from this port. Boats were put out and ten of the number were hauled out of the water. The others were drowned. Those rescued declared they preferred death to serving on plantations or in the army in the Tierra Caliente or "hot country" of Mexico. It is reported from Sonora that there are now more than 1,500 Yaquis under guard in that state awaiting deportation.

### EPIDEMIC OF TYPHOID.

Three Persons Dead and Many Others Seriously Ill.

Dayton, O., Feb. 13.—Three persons are dead and twenty others are dangerously ill in the vicinity of West Manchester, O., with typhoid fever, an epidemic of which was caused by impure water from an old well. The whole neighborhood has been poisoned and other deaths are expected. The well is located on a farm near the village and was abandoned until recently.

Dangerous Lunatic at Large.

St. Paul, Feb. 13.—Somewhere between St. Peter and the Twin Cities, James Thomas, a maniac, who escaped from the hospital for the insane at St. Peter, is roaming, terrorizing the citizens of that district. Every effort is being made to effect his capture, as he is considered by the officers to be a dangerous man.

Old Man's Neck Broken.

Ivanhoe, Minn., Feb. 13.—Gustaf Lovstrand, a farmer sixty years old, residing a short distance south of Ivanhoe, is not expected to live as the result of a broken neck, from which his entire body is paralyzed. The injury occurred while he was engaged with a young man of eighteen in an Indian wrestle, a sport in which the loser is thrown backward over his head.

"I have observed," he said, "that the risibilities of the other side were considerably stirred by the clash of two individual opinions on this side. The Republicans seem to rejoice in the fact that there is no rod of iron on the Democratic side to assure absolute unanimity of opinion. I recognize, as in contrast, that the Republicans are generally united, notwithstanding the fact that now and then when one of them rises he is warned by another of them to get out of the way or be run down."

### TALKS ON CURRENCY BILL

Senator Rayner Condemns Present System of Banking.

Washington, Feb. 13.—Senator Rayner of Maryland spoke at length in the senate on the currency bill, condemning the present system of banking in the United States and incidentally declaring that the president by his methods of fighting the encroachments of predatory wealth had done much to intensify the panic through which the country has recently passed. The senate devoted two hours to considering the criminal code bill and then adjourned.

### INDIANS COMMIT SUICIDE.

Sixteen Attempt Self-Destruction and Six Succeed.

San Antonio, Tex., Feb. 13.—A special to the Express from Mazatlan says:

Sixteen Yaqui Indians deported from Sonora and en route to the Isthmus of Tehuantepec and Yucatan, attempted to commit suicide by jumping into the ocean from the government transport when a short distance from this port. Boats were put out and ten of the number were hauled out of the water. The others were drowned. Those rescued declared they preferred death to serving on plantations or in the army in the Tierra Caliente or "hot country" of Mexico. It is reported from Sonora that there are now more than 1,500 Yaquis under guard in that state awaiting deportation.

### EPIDEMIC OF TYPHOID.

Three Persons Dead and Many Others Seriously Ill.

Dayton, O., Feb. 13.—Three persons are dead and twenty others are dangerously ill in the vicinity of West Manchester, O., with typhoid fever, an epidemic of which was caused by impure water from an old well. The whole neighborhood has been poisoned and other deaths are expected. The well is located on a farm near the village and was abandoned until recently.

### Dangerous Lunatic at Large.

St. Paul, Feb. 13.—Somewhere between St. Peter and the Twin Cities, James Thomas, a maniac, who escaped from the hospital for the insane at St. Peter, is roaming, terrorizing the citizens of that district. Every effort is being made to effect his capture, as he is considered by the officers to be a dangerous man.

### Old Man's Neck Broken.

Ivanhoe, Minn., Feb. 13.—Gustaf Lovstrand, a farmer sixty years old, residing a short distance south of Ivanhoe, is not expected to live as the result of a broken neck, from which his entire body is paralyzed. The injury occurred while he was engaged with a young man of eighteen in an Indian wrestle, a sport in which the loser is thrown backward over his head.

Its action on the blood, as a thorough purifier makes it especially useful as a spring medicine. This grand alternative tonic is sold under guarantee at H. P. Dunn's, druggist. tts-w

### ALL EYES TURNING TO MINNESOTA

Settlers in Northwest Canada Reported as Looking Longing to North Star State

HAVE HAD TWO CROP FAILURES

Are Unable to Buy Lands and are Seeking Homestead Lands in Minnesota

Duluth News-Tribune:—Settlers in the Canadian northwest are turning their eyes toward northern Minnesota as their agricultural mecca, and a movement has already begun from that territory toward taking up homesteads in this state.

H. E. Eva, secretary of the Duluth Commercial club, received a letter yesterday from George Welch, commissioner of immigration for the state of Minnesota, who says that settlers in the Canadian northwest are tired of living in Canada, and want to come to Minnesota. Their crops have failed for several years, and their condition is said to be very discouraging.

Mr. Welch writes as follows: "This department is in receipt of a number of communications from the Canadian northwest in which the writers are asking for information about homestead lands in Minnesota. They say they have no money, consequently are unable to buy lands. They inform me that their crops have been entirely destroyed for two consecutive years.

"I believe the people of our state should be acquainted with these conditions, and therefore take the liberty of writing you. I feel no hesitation in saying that if the homeseeker of today was acquainted with the opportunities that are offered in the northern sections of Minnesota, that district would receive a settlement unparalleled in history. In the communications that come to this office I find a large percentage of them are desirous of settling on lands on which there is a quantity of native timber."

### CHICAGO MAN'S HUGE TASK.

Would Drive Women From Shops Early to Seat Workers in Cars.

One man in Chicago has taken upon his shoulders a huge task. It is involved in this proposition: Women shoppers should buy early and get out of the shopping district before 5 p. m. Then the working girl and the tolling man could get seats in the street cars.

The brave man who proposes this idea is S. B. Mills, a member of the real estate board. At the board's meeting the other day he broached the matter.

"I have made a study of this situation for many years," said Mr. Mills. "Night after night I have watched these lazy women, with their sprawling bundles, march into the cars and take up half the seats. If a poor working girl who has been worn to a thread by waiting on them all day manages to get a seat it is a miracle.

"If a laboring man, heavy and tired from his day's work, doesn't rise to give them his seat, supposing by any chance he happens to have one, he is immediately regarded as a dolt and an idiot.

"These women ought to be driven out of the district before the close of the stores.

"Let us try moral suasion and coaxing and see if we can move their selfish hearts and solve one of the great features of the transportation problem. The ministers ought to preach on this subject."

## ROUTINE BUSINESS TRANSACTED

Mr. Stossmeister, of Business College Explained Plans to Business Men

The Commercial Club held its regular meeting in its rooms Wednesday evening. The inclement weather tended to cut down the attendance but what was lacking in numbers was made up in enthusiasm. The committee in charge of raising funds for the club reported informally, the chairman of the club being out of the city. According to the report \$385 had been pledged in addition to the regular dues for the maintenance of the club for the coming year.

The rules were suspended and B. S. Armstrong and F. M. Hagberg were unanimously elected to membership.

A letter from Stillwater asking if the Commercial Club would entertain a proposition looking toward the establishing of a manufacturing plant in this city, but did not mention the line, was read by the secretary and referred to the committee on manufactures.

Mr. Stossmeister, of the Brainerd Business college was present by invitation and explained to the club at length as to the plans and scope of the school to be opened and said that while the college was asking no bonus or favors they would greatly appreciate any commendation and patronage from members of the club and their sons and daughters and asked the club to use its influence for an immediate patronage of the school.

## PETITION TO CHANGE NAME

Postoffice at Smiley to be Known as "Niswa" if Petition of the Patrons is Heeded

A petition has been circulated and signed by the patrons of the Smiley postoffice asking the government to change the name to Niswa and if the request which has been sent in is granted it is said the name of the station on the Minnesota & International road will also be changed to conform to it. Smiley is gaining considerable notoriety as a summer resort and the people in that locality think that a change of name to the one referred to will be more appropriate. Mr. McDougal, the gentleman who owns the Lake Roy farm, has been one of the prime movers and as he is heavily interested in lands in that section and is putting forth extra efforts to bring people to that locality his suggestion in the matter has been taken kindly to by many of the old settlers in that vicinity. The name "Niswa" is the Indian name for Three Mile lake on which Smiley is located, although it is commonly called Fish Trap lake. Going on the theory that a summer resort should have a romantic name in order to make it popular and to attract attention the change will undoubtedly be regarded with favor.

## J. P. SAUNDERS IS TRANSFERRED

## GEO. RARDIN TO BE WARDEN

Well Known Brainerd Farmer

Will Succeed Mr. Saunders as Deputy Warden

George Rardin has been appointed to succeed J. P. Saunders as deputy game warden. While there have been rumors of such an appointment for several days the matter was first positively stated to THE DISPATCH yesterday by former Mayor Con O'Brien. According to the reports received Mr. Rardin takes up the duties of the office on the 15th of March. J. P. Saunders, who for the past eight years has filled the position of deputy game warden for this section, very satisfactorily to his superiors, has been assigned by the fish and game commission to work in the fisheries department under S. F. Fullerton, chief of fisheries. Mr. Saunders has proven himself one of the most successful men under the commission in the matter of fish culture and the gathering of the fish spawn and the fish and game commission were loth to lose his services. His special field of duties has not yet been assigned, but he will take up the work at once upon turning over the duties of deputy game warden to Mr. Rardin.

Mr. Rardin has been a resident of Crow Wing county for many years and has been the larger part of that time a farmer, although he conducted the Northern Pacific hotel in this city for several months. He entered the field for the republican nomination for sheriff in 1904, but withdrew before the primaries, making friends at that time who will be pleased to hear of his appointment to the position of deputy game warden.

## FREEMAN DOANE DIED SUDDENLY

Pioneer Resident Dropped From Load of Hay and Died of Apoplexy

## CAPT. JEROME DANE IS DEAD

Veteran of Two Minnesota Regiments Passed Away at Home in This City Wednesday

Word was received here today of the sudden death of Freeman Doane near his home in the town of Allen Wednesday. Mr. Doane, in company with his son John and Frank McKiddy was doing some logging and were preparing to go home for the night intending to take a load of hay with them. Mr. Doane was on the load, which was on a sled and about half loaded when he suddenly dropped from the load to the ground. He lived about twenty minutes but never spoke after he received the stroke. The funeral will be held at the home on Saturday and interment will be in the Lake Emily cemetery.

Freeman Doane has resided in Crow Wing county for more than a quarter of a century, for many years conducting a stopping place at Eagle lake in the town of Allen, formerly a part of the town of Emily. His place was on the old Leach lake road, one of the important government roads opened years ago to secure access to the reservations, and for years his stopping place was a busy spot. The march of the iron horse, however, stopped the travel on the trails and with the advent of the railroads the glory and usefulness of this and other stopping places passed and when the main building was burned a year or so ago it was not rebuilt, Mr. Doane fitting up one of the smaller buildings for a residence.

Capt. Jerome Dane, for fifteen years a resident of Crow Wing county and a veteran of the civil war, died at his home, 815 Elder street Wednesday afternoon, February 12. The funeral will be from the residence at 1 o'clock Friday afternoon to the First Baptist church, the services at the church commencing at 2:30. The funeral will be under the auspices of the G. A. R., Rev. Abramson preaching the sermon.

Mr. Dane was a pioneer at Mankato, Minn., having lived there many years. He enlisted in Co. H 2nd Minnesota infantry, and resigned the rank of lieutenant to organize company E in the 9th Minnesota infantry, which command he resigned in 1865 at the close of the war. After coming to Crow Wing county he lived on a farm in the town of Maple Grove, about ten miles southeast of Brainerd for nearly 8 years, since which time he has been a resident of Brainerd.

Capt. Jerome Dane was born in Morganville, N. Y., March 3, 1828, and had he lived three weeks longer would have been four score years of age. He was married at Williamstown, Dodge county, Wis., on March 13, 1854 to Mary Jane Mills, who still survives him. They have three children living, Mary Lucy McBeth of Grey Eagle, Mrs. Nettie A. Hall, of this city and Orlo J. Dane, of Killwinning, Canada.

Mr. and Mrs. Dane came to Mankato in 1857 or 1858 and made that place and Crow Wing county their home for over a quarter of a century.

## SIX WEEKS OF SUMMER SCHOOL

Superintendent Wilson Has Re-  
ceived Notice That One is  
Assigned to Brainerd

## THE FACULTY IS ANNOUNCED

Prof. P. P. Colgrove, of St. Cloud  
Normal School Will be  
Conductor

Superintendent Wilson today received  
a letter from the state superintendent of  
public instruction announcing the as-  
signment of a six-week's summer  
school for Crow Wing county. The  
school will be held in the Washington  
school building and will commence on  
Monday, June 22. The faculty as-  
signed to Brainerd will be as follows:

Conductor—P. P. Colgrove, of the  
State Normal School, St. Cloud.  
Instructors—L. H. Headly, Wayzata;  
Kathlyne L. Libby, Minneapolis; Ella  
Norris, Minneapolis; Alice Prendergast,  
St. Paul.

Superintendent Wilson states that  
he is highly pleased with the assign-  
ment of Prof. Colgrove to the school  
here. Mr. Colgrove is one of the best  
conductors in the state and one of the  
leading members of the St. Cloud nor-  
mal faculty. The school will give the  
young people of Crow Wing and adjoining  
counties an excellent opportunity  
to secure a good summer school  
training close to their homes and  
Mr. Wilson expects a large at-  
tendance.

### STATEMENT BY FORAKER.

Deals With the Primary Elections in Ohio.

Washington, Feb. 13.—Senator J. B. Foraker gave out a statement as to the result of the primary elections in Ohio on Tuesday, when the Taft forces made practically a clean sweep in the selection of delegates to the coming Republican state convention. In his statement, Senator Foraker says:

"Nobody should be either surprised or misled by the result of the primaries held in Ohio. It has been common knowledge for weeks that the call for these primaries was of such character that my friends throughout the state refused to participate. Consequently there was no opposition to the selection of Taft delegates. Under such circumstances, he would, of course, carry everything.

"That the result of the primaries does not indicate anything conclusive should be manifest from the fact that the total vote polled will not represent more than 10 per cent of the Republicans of Ohio. There were only two districts in which there was any

approach to a contest. And these contests were due to the fact that there were opposing candidates in each district for the nomination to congress.

"In the Sixth district, the Taft candidate was defeated by 1,025, while in the Fifteenth district, Mr. Dawes, the Taft leader and candidate for renomination, is probably beaten, according to the latest advices I have received. If there had been a primary in which we could have participated, similar results would have been possible, if not probable, all over the state."

### Knox the Chief Orator.

Pittsburg, Feb. 13.—With four United States senators, as many congressmen and several hundred of the most prominent business men of the Pittsburg district in attendance, the annual Lincoln birthday banquet of the Pittsburg Chamber of Commerce was held at the Hotel Schenley here. The chief address was delivered by Senator P. C. Knox of Pennsylvania. Senator Dolliver of Iowa, Senator Thomas Carter of Montana and Congressman J. Sloan Fassett of New York also spoke.

### FROM THE OIL TRUST.

Witness Testifies That He Was Granted Rebates.

Albany, N. Y., Feb. 13.—When a recess was taken in the hearing of the testimony in connection with the action brought by the United States government to dissolve the Standard Oil Company of New Jersey, former State Senator George Z. Deam of Cheshire, Mass., was on the stand. Mr. Deam gave testimony supplementary to that offered by Thomas L. Hisgen of Springfield, Mass. Other witnesses are to testify along the same line. Mr. Deam's testimony was to the effect that he secured a contract with the Standard Oil company and after buying oil was refunded the difference between the open and the contract price.

The attorneys for both the government and the Standard hope to conclude the hearing here as quickly as possible, as similar testimony is scheduled to be taken at Washington Feb. 24.

### JAPS ARE EXPERIMENTING

Their Actions Arouse Suspicion of Settlers in California.

Santa Monica, Cal., Feb. 13.—On an unfrequented bluff, which marks the northern limit of Santa Monica bay, a party of seven Japanese have been for several days past, it is reported, engaged in experiments that have aroused the suspicions of the settlers, as it is presumed that a portion of the American battleship fleet will spend several days in the bay.

The Japanese have been engaged in making maps of the cliffs along the bay and a small pivot gun, mounted on a cliff 185 feet above the sea, was fired, first in one direction and then in another.

There is not even a theory to the purpose of the party.

### Minneapolis Scholar Injured.

Exeter, N. H., Feb. 13.—While exercising in the Phillips-Exeter academy gymnasium, Foster Holmes of Minneapolis sustained injuries which were declared to be very dangerous. Holmes is a senior. He was trying the so-called giant swing on the horizontal bar, when he slipped and fell to the floor. He was rendered unconscious and shortly after his removal to the hospital it was announced his condition was critical.

### COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle wrappers and attest its correctness under oath, are daily growing in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investigation turned fully upon his formulae, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-on-coughs, which, if neglected or badly treated, lead up to and finally terminate in consumption.

Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of lay, or non-professional, testimonials. They are not given away to be experimented with but are sold by all dealers in medicines at reasonable prices.

### TO STOP DECEPTION IN WOOD

Bureau of Identification Established by the Government.

It is doubtful if any of the laboratories maintained by the government for scientific research are more unique in character and yet bear promise of more important results than one which has recently been established in Washington by the United States forest service for investigating the structure of commercially important woods, says a bulletin of the forest service. Laymen will not understand the significance of the proposed investigations carried on in this laboratory so quickly as architects, builders and other wood users who in these days of growing scarcity of the more valuable woods are seriously perplexed in identifying substitutes. Mistakes of this kind in identification have in several instances meant the loss of thousands of dollars and many embarrassing lawsuits.

Nearly any user of lumber can recognize and name offhand all the usual trees of the forest when he sees them growing, and not much difficulty is encountered in identifying the common kind of lumber in a mill yard, because he knows the few trees from which the yard lumber comes. But common kinds are growing scarce, and woods not often cut heretofore are appearing in the markets. The most experienced men are sometimes puzzled when they try to identify them, and persons with less experience have still more trouble. Is a certain wood gum or elm? Is another cucumber, linn or poplar? Is a stick sugar maple or red maple? Doubts may arise whether a piece is hemlock or spruce or whether it is lodgepole pine or fir or whether a shingle is cypress or cedar. A dealer may buy red oak and suspect that he is getting something else. There are thirty or more important species of oak. The best lumber dealer might not know which is which in the lumber pile, or if he knows he might not know how to prove it.

Many of these woods look alike, even to the trained eye of the mill man or the builder, and yet they are widely different in value for certain purposes, and it is of the greatest importance to be able to distinguish them quickly and certainly. Again, a new wood may come to a man's notice for the first time, and it may be necessary for him to decide what it is and what it is worth.

The government has been helping individual lumber users for some time, but the facilities have not been near so complete as they are now. It is to meet such needs and answer such questions that the forest service has established the laboratory and placed it in charge of a trained dendrologist. Architects, lumbermen, manufacturers and makers of woodware are already sending in samples of wood for identification and asking if there are not some structural characters by means of which such woods may be conveniently separated for relative species having greater or less value for some specific purpose.

The laboratory will investigate in a practical way. The structure of the woods, sections lengthwise and crosswise, will be studied so as to separate by structure alone the various species of a genus. Analytical keys to the trees of each group will be worked out. These will be based on the arrangement and character of the pores discernible to the naked eye or by a hand lens. The results will be published from time to time, with good illustrations, and placed at the disposal of lumber users.

### Home For "Forty-niners."

Blanche Bates, the star of "The Girl of the Golden West," is agitating a project for the establishment of a home for needy "forty-niners." Miss Bates is an ardent student of the history of her native state and believes the work of development in California is directly due to the early gold seekers. In return for their efforts of a half century ago she believes those that require it should be rewarded to the extent of furnishing them a refuge in their old age. The actress is now in communication with the various congressional representatives from California with a view to learning how much she may depend upon them for aid in the movement.

### HUGHES MAY NAME THEM

New York's Delegates-at-Large to National Republican Convention.

New York, Feb. 13.—A move to have the delegates-at-large and their alternates from this state to the national Republican convention named by Governor Hughes was officially started when Edward F. Cragin, chairman of the executive committee of the Hughes National league, called on the governor and stated to him that it had been the custom for the state's choice for president to name the four delegates-at-large and their alternates and that the custom should be adhered to this year.

Governor Hughes thanked them and said he would take their suggestion into consideration and if he could do so consistently with his expressed attitude he would conform to their request.

Timothy Woodruff, chairman of the Republican state committee, who said that he was certain that Governor Hughes would name the delegates, talked with the governor concerning the designation of the delegates. An announcement may be made later.

## What Makes a Woman Look Old? WRINKLES!

### The Arch Enemies of Beauty

When wrinkles come—animation, expression and beauty go. We say: "How old and wrinkled she looks!"

A woman may have a wealth of luxuriant hair, a complexion like a lily and the profile of a Grecian goddess and yet be made conspicuously unattractive by the blight of beauty—wrinkles.

Beauty is in the animation of the features; the bright expression of penetration in the eyes; the clear-cut lines of the "inviting" mouth—and in that indefinable "something" that bids for the envy of women and the admiration of men.

Wouldn't She Be Beautiful if It Wasn't for the Wrinkles?

The above likeness is from a photo, taken last October, of a well-known Chicago lady, who resides at Hotel Wychmere, Eighteenth and Indiana Av., that city. Since then she has taken a course treatment and is now

One of the Most Beautiful Women in Chicago

If you will call at

**H. P. DUNN'S**

where these goods are on sale, you will receive a booklet, entitled

## "HOW TO BE BEAUTIFUL"

Showing, on the front cover, a likeness of this superb beauty. Inside the booklet you will find her name and a signed, personal letter in praise of the Burnham requisites. By description and diagram, the booklet clearly shows how this wonderful change was accomplished.

### Wrinkles Can Be Entirely Eradicated

But not as easily as some people would have you believe. Wrinkles are stubbornly persistent and yield only to the most skillful treatment. The scientific preparations for this purpose are

#### E. Burnham's Skin Tightener

Begins the removal of wrinkles by giving the skin new tone and vigor, causing it to contract—the sagging eyelids gradually resume their youthful condition—the furrows on the brow disappear and the hard lines around the mouth grow dim and vanish.

#### E. Burnham's Skin Food

Completes the removal of wrinkles by strengthening and building up the wasted tissues—stimulates the circulation of red blood through every capillary—rounds out the sunken temples and hollow cheeks—makes permanent the good effects of massage.

#### E. Burnham's Cucumbers Cream

Should be used with this treatment to make the skin clean and elastic, so that the other two preparations can more effectively do their work. The Cream penetrates and dissolves the greasy impurities that have clogged the pores. This allows the Skin Food to pass through them and ACT ON THE TISSUES BENEATH.

#### HUGHES MAY NAME THEM

New York's Delegates-at-Large to National Republican Convention.

New York, Feb. 13.—A move to have the delegates-at-large and their alternates from this state to the national Republican convention named by Governor Hughes was officially started when Edward F. Cragin, chairman of the executive committee of the Hughes National league, called on the governor and stated to him that it had been the custom for the state's choice for president to name the four delegates-at-large and their alternates and that the custom should be adhered to this year.

Governor Hughes thanked them and said he would take their suggestion into consideration and if he could do so consistently with his expressed attitude he would conform to their request.

Timothy Woodruff, chairman of the Republican state committee, who said that he was certain that Governor Hughes would name the delegates, talked with the governor concerning the designation of the delegates. An announcement may be made later.

This One Limps.

I think springtime is a fake—It is a regular Jonah; It comes one day, is gone the next, And I have hives—but I've got no bees.

The men of this town that truly live are those that know enough to drop in here and now and then take home with them a bottle of whatever line of whiskey they like best. There is nothing so comfort giving as the thought that you have just what you want in your own home and that the liquor is pure and good.

## What Makes a Woman Look Old? WRINKLES!

### The Arch Enemies of Beauty

When wrinkles come—animation, expression and beauty go. We say: "How old and wrinkled she looks!"

A woman may have a wealth of luxuriant hair, a complexion like a lily and the profile of a Grecian goddess and yet be made conspicuously unattractive by the blight of beauty—wrinkles.

Beauty is in the animation of the features; the bright expression of penetration in the eyes; the clear-cut lines of the "inviting" mouth—and in that indefinable "something" that bids for the envy of women and the admiration of men.

Wouldn't She Be Beautiful if It Wasn't for the Wrinkles?

The above likeness is from a photo, taken last October, of a well-known Chicago lady, who resides at Hotel Wychmere, Eighteenth and Indiana Aves., that city. Since then she has taken a course treatment and is now

One of the Most Beautiful Women in Chicago

If you will call at

H. P. DUNN'S

where these goods are on sale, you will receive a booklet, entitled

## "HOW TO BE BEAUTIFUL"

Showing, on the front cover, a likeness of this superb beauty. Inside the booklet you will find her name and a signed, personal letter in praise of the Burnham requisites. By description and diagram, the booklet clearly shows how this wonderful change was accomplished.

### Wrinkles Can Be Entirely Eradicated

But not as easily as some people would have you believe. Wrinkles are stubbornly persistent and yield only to the most skillful treatment. The scientific preparations for this purpose are

**E. Burnham's Skin Tightener**  
Begins the removal of wrinkles by giving the skin new tone and vigor, causing it to contract—the sagging eyelids gradually resume their youthful condition—the furrows on the brow disappear and the hard lines around the mouth grow dim and vanish.

**E. Burnham's Skin Food**  
Completes the removal of wrinkles by strengthening and building up the wasted tissues—stimulates the circulation of red blood through every capillary—rounds out the sunken temples and hollow cheeks—makes permanent the good effects of massage.

#### E. Burnham's Cucumber Cream

Should be used with this treatment to make the skin clean and elastic, so that the other two preparations can more effectively do their work. The Cream penetrates and dissolves the greasy impurities that have clogged the pores. This allows the Skin Food to pass through them and ACT ON THE TISSUES BENEATH.

**E. BURNHAM,** 70 AND 72 STATE ST. CHICAGO, ILL.  
The Largest Manufacturer in the World of Toilet Requisites and Hair Goods.
